Haneen Mahmoud

DATA ANALYST

01114269180 | haneenmahmoud2452004@gmail.com | Tanta, Egypt | https://www.linkedin.com/in/haneen-mahmoud-363a02309

PROFESSIONAL SUMMARY

Computer Science graduate focused on Data Analysis, with hands-on experience in SQL, Excel, Power BI, and Python. Skilled in data cleaning, analysis, visualization, and transforming data into clear insights that support better decisions. Completed practical training in Data Analysis and developed a graduation project combining machine learning with a web application. Detail-oriented, fast-learning, and eager to start a career as a Data Analyst.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Data Analysis, Exploratory Data Analysis (EDA), Data Visualization, Reporting
BI & Visualization: Microsoft Power BI, Dashboards, KPIs, Data Storytelling
Databases: SQL, SQL Server, Database Querying
Excel: Data Cleaning, Analysis, Functions, Pivot Tables, Charts
Programming: Python, Java, Django, FastAPI
Machine Learning: CNN, EfficientNet, Image Classification
Tools: Google Colab, Git/GitHub, Microsoft Office

EDUCATION

Egyptian E-Learning University (EELU) — B.Sc. in Computer Science
Overall Grade: Very Good | GPA: 3.42

PROJECTS

Brain Tumor Classification Web Application | Python, EfficientNetB3, CNN, FastAPI, SQL, HTML/CSS, Google Colab

- Developed a web application that classifies brain MRI images into Glioma, Meningioma, Pituitary Tumor, and Non-tumor categories.
- Built and trained a CNN-based model using EfficientNetB3 with MRI image preprocessing and resizing to 150×150 pixels.
- Worked with a dataset of 3,264 manually labeled MRI scans and integrated the trained model into a web-based workflow.
- Designed a workflow for patient registration, MRI image upload, model prediction, and displaying classification results.
- Graduation project awarded A+.

TRAINING & CERTIFICATIONS

DEPI – Data Analysis — Data Analysis training covering practical data analysis skills and tools.
ITI – 120-Hour Training — Intensive technical training.
Microsoft Azure Fundamentals – AZ-900 — Microsoft Azure fundamentals certification.
Cisco Training/Certificate — Cisco technical training/certificate.
YAT / Back-End Training — One-month back-end development training.

CORE STRENGTHS

Analytical Thinking | Attention to Detail | Problem Solving | Fast Learning | Communication | Teamwork
